

## AUSTRIAN REJOINDER IS VIEWED AS COMPLETE SURRENDER TERRIFIC BOMBARDMENT LAUNCHED ON THE VERDUN SECTOR

### INTEREST CENTERS IN EFFECT PEACE WITH DUAL MONARCHY WILL HAVE ON GERMAN FUTURE

Paris Papers, Referring to "Capitulation" of Hapsburg Nation, Urge Caution Lest There be a Snare Somewhere; Independent-Hungarian State has Been Formed.

### ANKES DELUGED WITH GAS AND H. E. SHELLS

(By Associated Press)  
LONDON, Oct. 29.—Austria's reply to President Wilson is viewed here as an unconditional surrender. Although recognizing an event of intrinsically the greatest moment, denoting a breaking up of Hapsburg power, main interest in the situation lies in the effect it will inevitably have on Germany.

PARIS, Oct. 29.—"The capitulation of Austria" is the unvarying caption with which the morning newspapers precede Julius Andrássy's note to President Wilson. The editorials of the newspapers, while accepting this conclusion, urged caution lest there be some hidden snare behind the Austrian offer.

COPENHAGEN, Oct. 29.—An Independent and anti-dynastic state has been formed in Hungary under the leadership of Count Michael Karolyi in agreement with the Czechs and South Slavonians, according to Vienna reports received by the newspaper Politiken.

In a speech at Budapest Karolyi declared he had presented a program to Emperor Charles who refused to accept it. Karolyi thereupon put into effect his plan for an independent state.

### AMERICANS UNDER HOT FIRE

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 29.—10 A. M.—Activities along the center of the American front began long before daylight this morning with a furious bombardment. The enemy opened a heavy fire with shells at 2.30 o'clock which was changed to high explosives at 3.45 and 5 o'clock. The American artillery responded and American patrols were active in the Bantheville woods all night.

WITH THE AMERICAN FORCES NORTHWEST OF VERDUN, Oct. 29.—5 P. M.—The artillery bombardment and machine gun fire reached great intensity during the night. The fire was especially intense in the Meuse and Ormont wood. The activity died on the front west of the river Meuse and there was no important action of any nature this morning.

LET DURING NIGHT ON BRITISH FRONT  
LONDON, Oct. 29.—Artillery duels and patrol encounters were the only activity on the British front during the night. Field Marshal Haig reports his official statement today.

ALLAN KING DRAVES  
HOT ARTILLERY FIRE  
TALLAN HEADQUARTERS ON THE PLAVE, Monday, Oct. 29.—King Dr. Emanuel saw the Allied soldiers make the difficult crossing of the river. He was dressed as usual in a uniform made of the same material as that of private soldiers.

THE KING WAS UNDER THE FIRE OF the Austrian guns and was at various intervals where gas shells and shrapnel were falling. He spent much time at where there was a heavy bombardment to prevent the Allied passage of the river.

AMERICANS IN RESERVE ON ITALIAN FRONT  
TALLAN HEADQUARTERS ON THE PLAVE, Monday, Oct. 29.—American soldiers are in reserve along the line fighting zone. The correspondents saw an American battalion going through its "setting up" exercises this morning near the river.

GERMANY'S ARMY CLOSING IN ON GUISE  
PARIS, Oct. 29.—General Debenedictis' army continues to close in on Guise and has captured the German line trenches and the barracks of hospital south of the chateau of Guise, according to the official statement today.

THE GERMAN ARMY HAS PASSED beyond the Louvain farm. They also intend to make progress on the bank of the Peron river.

COPENHAGEN, Oct. 29.—The German federal council has approved the amendment the imperial constitution in the form as adopted by the chancery, according to a Berlin telegram.

GERMAN SHORT ON GASOLINE SUPPLY  
PARIS, Oct. 29.—The German army suffering from a gasoline famine, the Matin. At many places the German have found tractors in perfect condition which have been abandoned through lack of gasoline.

### AMERICANS READY FOR PART IN BIG DRIVE IN ITALY

Presence There Indicates Campaign is Part of Foch's General Plan.

### AUSTRIAN CENTER BREAKS

Fifteen Thousand Prisoners Taken in Attack Against Tenth's Center; Austrians Fight Desperately to Check Crossing But Efforts Are Vain.

(By Associated Press)

WASHINGTON, Oct. 29.—American troops are on the verge of active participation in the great war on a third major front. This was the interpretation made here today of news from the Italian headquarters that Americans are standing in reserve behind the British and Italian forces now driving across the Plave.

The news is considered significant not because of the size of the American contingents in Italy or the direct effect it may have on the battle but because it indicates that the Italian drive is a definite part of the great offensive that is rapidly bringing complete defeat to the Central Powers. It had added meaning to officials here also, since Austria is now pleading for an immediate armistice.

ITALIAN HEADQUARTERS ON THE PLAVE, Oct. 29.—Fifteen thousand prisoners have been taken by the British, Italian and French up to late today in the advance across the Plave which for the third time in one year is the scene of a desperate battle. This time, however, the tables are turned against the Austrians, who are steadily being thrust back from the eastern bank of the river.

The battle now has been going on for five days and has been marked by desperate resistance of the Austrians. They have directed their artillery fire against the pontoon bridges thrown across the Plave and their bombing airplanes also have caused trouble for the Allies. The Allies not only have had to battle against the swift river current, but also to contend with new types of the pontoon and foot bridges damaged by the Austrians.

Once across the river the Allies have had to overcome strong Austrian trench positions and machine gun posts. While the Allies have thrown forces across the Plave on a front of about 30 miles the heaviest fighting has been along a stretch of seven miles between Conegliano and Oderzo where the Italians and British have advanced more than three miles making a formidable wedge in the Austrian position east of the river and between two of their main communication lines.

The Allies are within two miles of both Conegliano and Oderzo. Along the Plave, south of Oderzo, there has been little fighting but the Allied advance in the north would tend to force the Austrians to evacuate the lowlands of the lower Plave.

WITH THE ALLIED FORCES ON THE PLAVE, Monday, Oct. 29.—8 P. M.—The last stand of the Austro-Hungarian resistance on the central positions along the Plave river was broken today by the British, French and Italian forces.

TWO MILES A MINUTE  
Made by Son of Col. Schoonmaker Flying to Bedside of Parent.

(By Associated Press)

PITTSBURGH, Oct. 29.—Flying at an average rate of more than two miles a minute, James M. Schoonmaker, Jr., son of the vice president of the Pittsburgh & Lake Erie railroad covered the distance of 228 miles from the Wright flying field at Dayton, Ohio, to Pittsburgh in one hour and 45 minutes yesterday afternoon.

Schoonmaker, who was piloted by Howard Rinehart, made the flight which is believed to be a record. It was learned that his father was seriously ill, following an operation at his home here.

Thirteen patients were receiving treatment last night at the emergency hospital at Dawson.

### PARTIAL DIVISION MADE OF ESTATE OF LATE DAWSON MAN

Report in Uniontown Shows Payment of \$43,284 to Philip Cochran from Father's Wealth.

In the estate of the late William R. Cochran of Dawson the report of the Fidelity Title & Trust company of Pittsburgh, appointed executor on the resignation of M. M. Cochran, was filed in Uniontown this morning showing a payment of \$43,284.07 to Philip J. Cochran on his attaining his majority, he being entitled to one-fourth of the estate. The balance in the hands of the executor is shown to be \$292,596.20.

The son's share is \$73,936.07 from which is deducted \$22,450 in cash already received. The beneficiary elected to take the following property of the deceased: one-fourth interest in the James Cochran store, \$133.33; 10 First Liberty Loan bonds of \$1,000 each; 100 shares in Washington Coal & Coke company, \$10,000; 20 shares in Washington Run Railroad company, \$1,000; five shares in First National bank, Dawson, \$50; one-fourth interest in capital stock of Star Supply company, Dawson, \$555.67.

Administrators B. Cochran, Regina Gertrude, John Cochran and William R. Cochran, Jr., other heirs, have not yet reached majority.

The final account in the estate of Sarah A. Marietta, widow of Almond Marietta of Connellsville shows a balance of \$9,373.24 to be distributed as follows: Dora Davies, \$2,791.08; Ora Edna Marietta, \$2,791.08; Harry Marietta, \$2,562.40, he having previously received a part of his share. In the estate of Rachel Taylor Rankin the children receive the following: Ella M. Rhodes, Charles A. Rankin and the estate of John S. Rankin, \$143.98 each; Catherine W. Moore, \$143.97; W. B. Hetzel, trustee for George Hetzel, \$143.98.

### PAPERS IN POCKET SAVE FRETTES WHEN SHRAPNEL STRIKES

Member of Company D Has Several Other Advantages, None Serious, He Writes Parents.

"All the boys you know are fine. Very few were killed when you knew. I had a very narrow escape. As to myself I am O. K.," says Sergeant Charles A. Fretts of Company D, 110th Infantry, in a letter dated September 24 to his parents, Mr. and Mrs. D. D. Fretts of Eas, Crawford avenue, Connellsville. "I was hit several times, but not much hurt. One piece of shrapnel might have hurt me only I had a pocket full of papers and other articles. The rest, outside of one, would not call for notice. The German mortar is all shot. The men are disgusted. The people in Germany are sick of the war. Many of the prisoners predict the end by Christmas. While many are very sarcastic and say they will win the more intelligent admit they are licked and cannot hold out much longer. From what I know the war will be of short duration. Some of the German captains say so."

Callaux Trial Opens.

### EPIDEMIC OF INFLUENZA ON THE WANE HERE

That Is Impression Gained From Number of New Cases and Deaths.

### B. & O. SITUATION BETTER

Comparatively Small Number of Railroad Men Reported Off Duty From the Malady; Hospital Opened in Episcopal Parish House at Dunbar.

The influenza epidemic seems to be on the wane in Connellsville judging from the number of persons who had been ill that have reported back to their work. The death rate dropped today and several local physicians believe the disease is about checked. There are still a number of serious cases, however, and there is to be no relaxation in the measures to prevent spread of the disease.

There are still 51 cases being cared for at the emergency hospital. Four new patients were admitted yesterday and four were discharged. There were two deaths. Two new patients were admitted this morning.

Frank Raffy of the West Side, died yesterday, and Elmer L. Swink, a baby, also died.

Conditions among Baltimore & Ohio employees are slowly improving. The improvement is more noticeable among men living in this city, and the epidemic seems to be checked somewhat along the entire division.

In the city as many as 115 employees had been off at one time, mostly on account of the influenza. At present there are only 32 off, which shows an excellent improvement.

Employees of the Senet-Solway Company at Dunbar have all been inoculated with the anti-flu serum, two treatments having been administered. An emergency hospital under the auspices of the Dunbar branch of the Red Cross has been opened in the Episcopal parish house at Dunbar. Seven patients, two women, one man and four children, all suffering from influenza, have been admitted. Women and girls of Dunbar are volunteering their services in nursing the sick.

Thirty-two women are now engaged in nursing influenza and pneumonia patients in Connellsville under the auspices of the Red Cross, according to a statement today. This morning eight nurses were sent out in automobiles visiting homes of the sick.

As evidence that the work of the Red Cross is appreciated the following letter was received by Mrs. A. B. Hood, chairman of the nursing committee:

"My wife and baby and myself wish to extend our most sincere thanks to the Red Cross for the attention given them when sick. Your services have been deeply appreciated."

### WILSON'S DEMAND FOR VOTES BEST REASON WHY WE SHOULD HAVE REPUBLICAN CONGRESS

President's Plea and Democratic Inefficiency and Waste are Scathingly Arraigned by Colonel Roosevelt in Speech in New York; Loyalty to Country Made Subservient to Loyalty to Democratic Party.

### TRICKS OF THE ADMINISTRATION ARE EXPOSED

NEW YORK, Oct. 29.—Speaking at a great Republican rally in Carnegie hall last night Colonel Theodore Roosevelt answered President Wilson's appeal to the nation to elect a Democratic congress November 5 by charging that the President wishes to make the interests of the nation subservient to those of the Democratic party, and that, in the present world crisis, he regards disloyalty to the country and the Allied cause as less serious than disloyalty to himself.

In scathing terms the former president spoke of the inefficiency in preparation and waste that have attended the Wilson administration's conduct of the war. Colonel Roosevelt said:

"This meeting is held under peculiar circumstances. If the President of the United States is right in the appeal he has just made to the voters, then you and I, my hearers, have no right to vote at this election or to discuss public questions while the war lasts. If his appeal is justified, only that faction of the Democratic party which accepts towards the President the rubber stamp attitude of complete servility is entitled to control congress; and no man who is a Republican, and no man whether a Republican or not who puts loyalty to the people ahead of loyalty to the servant of the people, is to have a voice in determining the greatest questions ever brought before this Nation."

"In this election appeal which the President has issued to the voters of the country he states that he 'earnestly begs' the voters to return 'a Democratic majority to both the Senate and the House of Representatives,' and that although 'the leaders of the minority in the present congress have unquestionably been pro-war they have been anti-administration,' and that 'the return of a Republican majority to either house of congress would certainly be interpreted on the other side of the water as a repudiation of my (President Wilson's) leadership.'"

### COMMITTEE TO SUPERVISE XMAS PARCELS NAMED

Each Locality Will Have Chairman Who Will Appoint Assistants From Red Cross.

A meeting of the Christmas-Parcels committee, which will handle the mailing of parcels to the soldiers in Europe, was held in Uniontown yesterday afternoon at which chairman for each of the sub-districts in the Connellsville, Uniontown and Brownsville districts were selected. Ralph B. Hyatt, superintendent of the mails at the local postoffice, will supervise the mailing of the packages in this district.

At the meeting Mr. Hyatt named the following men to act as chairmen in their own districts. The chairmen may call on members of the Red Cross for whatever assistance they will need in handling the parcels. The parcels will be ready for distribution by November 1. Instructions and parcels were mailed to each chairman. The men selected are:

Atgetts, Dennis A. Connellsville; Banning, James Robertson; Bidwell, Nettie Shipley; Broad Ford, Francis Harrington; Bruner, R. A. Van Sickle; Champion, Samuel E. Solomon; Cloverport, Anna Rosenberg; Dawson, J. R. Henry; Dickerson, Ruth, Charles T. Field; Dunbar, R. J. McGee; Freed, Charles W. Hall; Indias Creek, H. W. Miller; Indian Head, I. L. Sparks; Layton, Samuel B. Hamilton; Leisenring, Rosa McClory; Markleysburg, Ferd Thomas; Mill Run, W. S. Coburn; Normalville, A. G. C. Sherbondy; Ohioville, Ruth Sallor; Owensdale, A. Shallenberger; Pennsylvania, Sue Means; Perryopolis, Nathaniel Evers; Star Junction, J. W. Keffer; Stewarton, William T. Herwick; Vanderhill, L. N. Strickler; Victoria, John Harbaugh; White, S. M. White; Whitsett, N. O. Dicker; Wick Haven, B. U. Elcher.

"I am glad that Mr. Wilson has now cast off the mask. His appeal is now to pure patriotism. By his actions (since he announced that politics were adjourned) he had already indicated his words; for he had already interfered for purely political reasons in the election contests in Wisconsin, Illinois, Michigan and many other states. Now he openly by formal announcement repudiates all pretense of putting the public welfare above party. Now he declares that this is a party war, and that the Republicans, although he admits 'that they have been unquestionably pro-war,' are to be excluded from any share in controlling the war."

"Nor is this all. He makes his appeal on behalf of the Democratic party. But he is careful to qualify it so as to exclude all Democrats who put loyalty to the Nation or even loyalty to their party principles ahead of adherence to the administration. He in no way discriminates between Democrats who are pro-war and those who are anti-war. He asks the exclusion from Congress of the man who is anti-administration, without the slightest reference to whether he is pro-war or anti-war, loyal or disloyal, patriotic or unpatriotic. The one test he imposes is loyalty to himself. The President of the United States repudiates the position of being President of all the people."

### SOCIETY.

The following important communication concerning the distribution of knitted articles has just been received by the local Red Cross chapter from National Headquarters:

"We have no doubt that the women of your Division are fully aware of the limitations in the supply of yarn. The yarn we have on hand, if properly conserved and made up into the essential articles—sweaters and socks—will take care of the requirements of our Department of Foreign Relief and Military Relief for the present season. The distribution of knitted articles through these channels insures the best possible use of the garments.

"We therefore feel very strongly that there should be no further distribution made directly to draftees by local chapters of knitted articles made from materials bought with Red Cross funds. By following this procedure the men will be adequately taken care of by the Red Cross representatives of the Department of Military Relief who are attached to all the camps and cantonments, and we believe if the women in the chapters understand this fact, they will agree that the course we have been forced to adopt in the matter is both wise and sensible.

"In view of this, Charles Scott, Jr., Division Manager, has no other alternative, than to direct the chapters to discontinue the distribution directly to draftees of the knitted articles made from materials bought with the Red Cross funds.

Announcement was made here today of the marriage at noon last Thursday at Winnipeg, Manitoba, Can., of Miss Eliza H. Crossland, daughter of the late Newcomer and Catherine Crossland of Conneltsville, to Cornelius A. Van Der Putten, of Winnipeg. The wedding was solemnized at the parsonage of the Methodist Episcopal church of that city. Mr. and Mrs. Van Der Putten will be at home at 323 Strathecona street, Winnipeg, where the bridegroom is engaged as an architect. The bride left Conneltsville eight years ago and had been in charge of the cloak and suit department of a department store at Winnipeg for several years.

### LOSE BOTH CHILDREN.

Pneumonia inflicted heavy loss on West Side family.

## IS EVERYBODY USING TONSILINE!

The Spanish influenza epidemic has meant a wonderful increase in the sale of Tonsiline—The National Sore Throat Remedy.

The moment medical authorities advised frequent use of an effective gargle to sterilize the throat, which those deadly germs must use as a gateway and breeding ground in entering the body, countless families went to their medicine chest or sent to the nearest druggist for a bottle of Tonsiline.

Also, the majority of those afflicted with the dreaded malady found themselves suffering from decidedly sore throats and many of them have renewed their faith in this time tried remedy.

For more than a quarter of a century Tonsiline has been relieving most of the sore throats in the territory where it was sold. This record stamps it as being particularly indicated right now as a preventive and relief in doing its share toward ending the present situation. It is as safe as a Liberty Bond.

### Billions of Savings.

Discouraging statistics and a good deal of talk are offered about the immense number of people who reach old age without provision for meeting its needs. Evidence is not lacking that the statement in this direction is overdrawn, since a lack of material possessions does not always prove a state of dependence upon public charity. Many old persons have invested their means in earlier years in sons and daughters that prove an investment capable of paying and that do pay large dividends in love and care. Old age without houses and land and stocks and bonds is not always improvident old age. Signs there are of a degree of improvidence in the younger generation that would seem to bode destitute old age; and yet who could be downcast about the situation in the face of the fact that the savings banks of this country have on deposit more than four billions of dollars—proof of thrift—which means hard work and careful savings through self-denial—that discounts to a degree the evidence that this is an extravagant and a thoughtless age—New Bedford Standard.

## TANLAC BOUGHT BY HAPPY MAN TO AID FRIEND

James Bainell of Pittsburg Tells of Remarkable Restoration to Health.

"I came to tell you how well I feel and to buy a bottle of Tanlac for a friend of mine," said James Bainell, of 25 Knox Ave., Pittsburg, Pa., to Mr. Carey, the Tanlac Man, at Heid-enreich's Drug Store, Pittsburg.

"Tanlac has done me so much good that I want every one to know it. I will always speak a good word for Tanlac, as it not only is making me face the coming year happy and well, but I have the happiness to know that I never can be sick again, because I have Tanlac to keep me well."

"I was suffering from a terrible kind of stomach trouble which made it impossible for me to eat, sleep or do anything else in life that gave me any comfort. I never went any place, except to my work because I felt so bad all the time. My work was a terrible burden to me, because I was so sick all the time that I could hardly keep on my feet."

"I then tried Tanlac. To my surprise, the first few doses began to clear off my stomach, and drive the poisons out of my system. My nerves are like iron, my bowels are regular, my stomach is well and I go around feeling good all the time."

Tanlac is now sold in Connel-ville exclusively by Connel-ville Drug Co., Beighley's Pharmacy and F. H. Harmer-ing, where the premier preparation can be had.—Adv.

## "DEMOCRACY'S HOPES AND SAFEGUARD"

In a Democracy we must have at least two political parties. In a true democracy, such as the boys are fighting to establish, representation must be equally distributed.

For instance in Fayette County, the Lower Youth and Monongahela end of the County, consisting of Perry Town-ship, Franklin Township, Washington Township, Lower Tyrone Township, Fayette City and Belle Vernon, has had no representation in the State Legisla-ture for twenty years. It is only fair that the voters of Connel-ville and vicinity go to the Polls, November 5th and vote for J. Buell Snyder of Perry-opolis, formerly Principal of the High School and now a Director and suc-cessful business manager.

Mr. Snyder stands with Foch on "UNCONDITIONAL SURRENDER OF THE HUNS" and with Madsen on or-ganized labor.—Political Advertise-ment.

## The Hoosier Will Help You

Preparing meals is hard at best but straightening up a disorderly kitchen afterward is enough to discourage any woman. That's one reason why you need the Hoosier Kitchen Cabinet—it has places for 400 articles, all within arm's reach. It helps you do your kitchen work in half the time. And keeps all things centralized as you use them.

Come in and let us fully explain Hoosier to you

Let us show you why Hoosier excels all other Cabinets in convenience—because it is scientifically built. The par-tionless work space above the sliding table top is wide and uncluttered. This is vital to convenience because 90 per cent of your work falls here. And the over-size Hoosier base gives you a lot more space for pots and pans than found in any other Cabinet.

Come in now and see the new Hoosier models—and how they will save you miles of steps and hours of time. No obli-gations whatever.

Prices range upward from as low as **\$29.50**

and substitutes for it the position of  
partisan leadership of one political  
faction; while even in this faction he  
makes servile adherence to his admin-  
istration the test of membership and  
of the moral right of any man to do  
his share in the great work of national  
self-government.Contrast with this the position of  
Abraham Lincoln, in the darkest days  
of the Civil War. Lincoln declined out-  
right to make any party appeal or to  
apply any party test or any test save  
that of loyalty in the prosecution of  
the war and loyalty to the Union and  
to liberty. In March, 1863, he ad-  
vocated sending to Congress only "un-  
conditional supporters of the war,"  
making no reference to any party; and  
in June of that year, in answer to  
some correspondents who signed  
themselves as "Democrats," he ex-  
pressed his regret that they had not  
called themselves "American citizens,"  
saying "In this time of national peril  
I would have preferred to meet you up-  
on a level one step higher than any  
party platform; and in August, in the  
only political letter he wrote that  
year, he appealed to "all those who  
maintain unconditional devotion to the  
Union," and in this appeal he explicit-  
ly included his own political friends  
with those of his political enemies,  
"Whom no partisan malice or partisan  
hope can make false to the nation's  
life." He thus explicitly based his ap-  
pel to pro-war men, without asking  
about their attitude towards himself.  
Again and again he appealed to "all  
loyal men" and to "all friends of union  
and liberty" and in 1864 he accepted  
his nomination as coming from the  
"unconditional Union men.""Lincoln made no party test. He  
appealed to all loyal men of all parties,

BROAD; NO DICTATOR AT HOME.And I ask you to consider one thing  
more, you Republicans and Independ-

to put erasing subservience to any  
man, ahead of the Republic. Indeed, I  
appeal most of all to the high-minded  
and patriotic Democrats whose boys  
are over in the army side by side  
with the boys of their Republican  
neighbors, and who do not wish to  
see these loyal neighbors treated as  
enemies of the Republic. President  
Wilson says that Republicans are not  
good enough to serve the Republic in  
Congress at this time. But they are  
good enough to die for the Republic  
in the army and navy! They are good  
enough to pay the taxes and subscribe  
to the loan! We have sent our sons  
and our brothers to spill their blood  
like water overseas under the flag; we  
have given our strength and our  
money without stint to serve the  
country at home, to float the loans,  
to back up the war activities of every  
kind; and now we are told that the  
blood of our sons, and the money  
saved at the expense of our wives and  
little children, do not entitle us to a  
word in saying how the war is to be  
waged? Or what are the terms on  
which peace is to be made, or what  
shall be our policies after the war?"Mr. Wilson says that this is no time  
for divided councils. Yet the Constitu-  
tion of the United States says that  
he must consult with the Congress of  
the United States. It is more impos-  
sible for the servant of the people to  
say that he will not consult with those  
other servants of the people whom the  
people have elected for the express  
purpose of giving him counsel. The  
world would be better off now by  
hundreds of thousands of fearless  
lives and by many billions of dollars  
of treasure if Mr. Wilson had been  
willing to supplement his own self-  
sufficient ignorance by the counsel of  
those who would gladly have counseled  
him wisely, but who would not creep  
into his presence as slaves."So far as I know, no Democratic  
Congressman has resigned his seat to  
go to the war. But six Republican  
Congressmen have resigned to go into  
the army, and already one of these  
has died. These men are deemed fit  
to die for the country; but the Presi-  
dent says that they and those like  
them are not fit to sit in the councils  
of the Nation and to take part in  
shaping our policy that our men shall  
not die in vain. The President says  
that this is his war, not the people's  
war, and that the half of the people  
who have been most resolute in favor  
of the firm and efficient prosecution  
of the war are heretofore to be ex-  
cluded from all share in its manage-  
ment, and from all say-so as to the  
peace which is to crown and justify  
it. We can pay with the blood of  
our heart's dearest; but that is all  
that we are to be allowed to do; and  
yet the price we pay, and the peace  
the Nation is to get for that price,  
are to be settled by the agency or the  
aid of the men of cold heart who do  
not fight themselves, whose nearest  
kin are not in danger, who prepared  
for war not at all, who helped wage  
the war feebly, and who are content  
with a craven peace."Mr. Henry Ford has announced  
that he does not believe in patriotism,  
that he thinks his flag is silly and  
does not believe in it, and that when  
this war is over he will pull the flag  
down and never hoist it again. The  
sons of this multi-millionaire stay at  
home while hundreds of thousands of  
men of small means leave their wives  
and children and go to the war. But  
Mr. Wilson is supporting Mr. Ford  
for the Senate. On the other hand,  
Senator Weeks does believe in patri-  
otism. He does believe in war. His  
only son is fighting overseas at this  
moment facing death side by side  
with his comrades from every rank of  
life. But Mr. Wilson is opposing Mr.  
Weeks. There are dozens of such  
cases; and the only explanation pos-  
sible of the President's attitude is that  
he makes adherence to his personal  
fortunes and not loyalty to the Nation  
the acid test in accordance with which  
he gives or withholds support.""The President's personal organ,  
The World, itself says that the present  
Democratic Congress is a  
"slacker Congress." And the Presi-  
dent asks the voters to keep these  
slackers in control provided only that  
they slackers follow him with abject  
obedience in whatever new direction  
he may momentarily lead. Shall wonder  
that in the cloakroom of the House  
the bitter jest circulates: "Here's to  
our Czar, last in war, first towards  
peace, long may he war!" The  
President says he is anxious about the  
effect on Germany and our Allies of  
the election of a Congress which  
would follow the present Republican  
leadership of the House and Senate.  
He need be under no anxiety. It  
would be clearly understood abroad  
as at home. Our Allies would know  
that it meant that America was de-  
termined to speed up the war, to back  
her own army and the armies of the  
Allies to the hilt, to tolerate no cor-  
ruption or inefficiency in waging the  
war, and to insist on Germany's un-  
conditional surrender. Germany and  
her vassal states would know that in  
this country the pro-Germans and  
pacifists and Bolsheviks and Germa-  
nized Socialists could no longer be  
counted upon as efficient and tor-  
mentous tools, that the fighting men  
and not the rhetoricians were uppermost,  
and that henceforth the Germans  
would have to deal with the resolute  
and straightforward soul of the Ameri-  
can people and not merely with the  
obscure purposes and wavering will  
of Mr. Wilson.And finally, let our people remem-  
ber that the incoming Congress will  
deal with the vital questions of re-  
construction after the war. The  
President proposes to let these ques-  
tions be dealt with by those who con-  
trol what his personal organ, calls  
the present "slacker Congress." He  
proposes to put the reconstruction of  
the country in the hands of theseslackers under the guidance of such  
men as Mr. Kitchen, the present  
leader of the House, and incidentally  
one of the anti-war leaders of the  
House. Surely the country will feel  
that this work of reconstruction  
ought to be entrusted to other hands,  
and that these hands shall be those of  
the Republican leaders whose vision  
is for the future and who yet possess  
practical ability to work for the best  
interests of the present."

## JOHN BARLEYCORN.

John Barleycorn, my Jo, John, since  
nations had their birth, you have, with  
beauty and grace, infused this old  
earth. But now you see your finish  
John, and many fits you throw, the  
bells are tolling knells for you, John  
Barleycorn, my Jo. This war has slain  
its millions, John, and many more  
must die, but you have killed far more  
than war, with your old gin and tye;  
the men who have fallen on battle-  
fields, your prayers and blessings know,  
but those you slay must die in shame,  
John Barleycorn, my Jo. John Barley-  
corn, my Jo, John, you have slain  
my Jo, John, you have slain my Jo,  
you cannot get aside your doom  
by blowing in the kale; nor can the  
tugs of weeds and weeds, nor can the  
whiskers flow avert one hour the bier  
and shroud, John Barleycorn, my Jo.  
'Twill be a better world, John, when  
you've removed your sight when you  
no longer poison men with lingo and  
wine; for every plunk you handle  
is the price of pain and woe, and  
that's the saddest sort of coin, John  
Barleycorn, my Jo. You've weaned  
all the world, John, you've tried the  
souls of men, and when you chase  
them away you must come back  
again; you're letting go, by inches,  
John, but you will have to go, and  
so slide and fare the ill, John, Bar-  
leycorn, my Jo.

## A TRUE AMERICAN.

Standing firm and standing fast,  
Being faithful to the last,  
Fighting hard for better things,  
Breaking down old fetterings;  
Less of flesh and more of soul,  
Thinking always of the goal,  
In the distance, and the day  
When great wrongs shall pass away—  
This we say of every man  
Who's a true American.Big of heart and broad of mind,  
Forthright, courteous and kind,  
Brave in danger's track and hour,  
Conscious ever of his power,  
Yet, regardless of his might,  
Free of pride and slow to fight,  
Never arrogant or mean,  
Never fiftly or unclean—  
Thus he serves his Maker's plan,  
Who's a true American.True to God and true to man  
Ever since his race began,  
He has kept his standards high;  
Plunging his banners to the sky  
As a symbol of life's best,  
Greed has never stained his crest.  
Not content with shame and scorn,  
Treasures that were his to earn,  
All that well becomes a man  
Marks the true American.

## Among Separate Skirts

When manufacturers began casting about for other fabrics than wool for new models in separate skirts, they experimented with several varieties of silks. Soft satins, tulle and silk poplin were among them. Probably the last, the old, familiar silk poplin, in weaves showing satin stripes and cross bars, is destined to so much success as any other. We can wear it with a clear conscience—it is not among the things needed for the army—and at the rate that wool is going we will have to look to silk to reduce the high cost of dressing.

Nearly all skirts are moderate in width and gathered or shirred to the waist. In the striped silks the stripes are old style made so that they run around the figure, horizontally, or are vertical. In girdles, made of the same silk as the skirt, one may choose between wide or narrow ones and have them with or without sash ends. Very wide, crushed girdles have many admirers and many skirts have wide pockets—especially among the fancy plaids and wide striped models in sport skirts.

There are some lovely skirts in soft black silk. Some of them are made with long, loose side panels ending in wide black silk fringe at the bottom. Others have panels at the back and front finished with wide fringe, with three-tiered ruffles at the side that make

them with or without sash ends. Very soft girdles are chosen for these skirts. The model pictured is made of dark gray silk poplin, with satin stripes that run horizontally. The odd pointed pockets are made separately and are suspended from the crushed girdle in which the stripes run vertically, as they do in the pockets. In plaid materials there is often a short, plaid yoke, cut on the bias, that fits smoothly about the hips, and the skirt is shirred to this. A sash may be added finished at the left side with a loop and pointed end of the silk.

Golf Smocks "Handkerchief" Style. The newest and neatest golf smocks—or smocks, as they are called—are finished in handkerchief style; that is, with hemstitched hems. Pointed, turned back cuffs and deep square collar have rather deep hems, the hemstitching crossing at the corners. Pointed pocket flaps have similar hems and hemstitching. The belt is hemstitched along both edges, the bottom of the smock is hemstitched, and for good measure, three lines of hemstitching, crossing each other at the corners, outline a holero device on either side of the front, above the belt.

## DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

See Tea and Sulphur Darkens So Naturally That No Body Can Tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Weyl's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyl's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Weyl's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## MERCY MUNITIONS NEEDED IN TRENCHES

Lieut. Coningsby Dawson, Fighting Author, Makes Stirring Appeal for Y. W. C. A.

Lieut. Coningsby Dawson, who wrote "Carry On," says of the war work which the Y. W. C. A. is doing: "You are doing a great job with your hands, but you are fighting with your money. The Y. W. C. A. is offering you just this chance. It carries the women's support trenches, which the British need. It asks you to supply them with munitions of mercy that they may be passed on to us. We need these supplies badly. Give generously that we may the sooner defeat the Hun."

What Lieut. Dawson says of the Y. W. C. A. he might have said of all the national organizations which are fighting together for the highest financial campaign that organizations have ever headed. All the \$170,000,000 to be raised by the seven great national organizations the week of November 11 will be used in munitions and supply the support trenches behind the lines. They are the Y. M. C. A., the Y. W. C. A., the National Catholic War Council,

the Jewish Welfare Board, American Library Association, War Camp Community Service and Salvation Army. American girls in various uniforms mingle strangely with picturesque Britanny costumes in France. The American Y. W. C. A. has a hostess house in Britanny where the Signal Corps women live and a hut where the nurses spend their free time. Both these centers are fitted with many of the comforts and conveniences of home.

"At a tea given at the nurses' hut one Saturday afternoon," writes Miss Mabel Warner, of Salina, Kansas, Y. W. C. A. worker there, "there was an odd gathering—one admiral, a bishop, a Presbyterian minister, a Roman Catholic priest, a doctor, an ensign, one civilian and myself."

## Walking Under Difficulties

"Believe me, I suffered from stomach and bowel trouble right. This weakened me so that I could scarcely walk. I could do no work. This was my condition when I started taking Mayr's Wonderful Remedy on the advice of a friend. Now I am working every day and feel better than I ever did in my life. It is the only medicine that ever touched me." It is a simple, harmless, preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. A. A. Clarke and druggists everywhere.—Adv.

## An Unheeded Event.

An announcement has appeared in the newspapers so insignificant that it has almost passed unheeded. The gist of the item was altogether out of proportion to its importance. The single paragraph was to the effect that the swinging bridge over the River canal at El Kantara, about 55 miles south of Port Said, had been completed. Yet that bridge affords direct railway communication between Cairo and the cities of Palestine; it crosses the desert which separated Egypt from Palestine, and which has for centuries barred the march of nations; it joins Asia to Africa, and it assures the world that the Holy Land will henceforth be under Christian guardianship. Xerxes bridging the Bosphorus is nothing to the British bridging the Suez canal! Surely the jells of Christianity ought to have been rung when that insignificant announcement came into the corners of the papers!—Christian Science Monitor.

## DRUGGISTS!! PLEASE NOTE VICK'S VAPORUB OVERSOLD DUE TO PRESENT EPIDEMIC

Tremendous Demand Last Few Days Has Wiped Out Excess Stocks That We Had Estimated Would Last Until Next January. Last Week's Orders Called for One and Three Quarter Million Jars—Today's Orders Alone Amount to 932,459 Jars.

Big Shipments Are En Route to Jobbers. Until These Arrive There May Be a Temporary Shortage. All Dealers Postponed—Buy in Small Lots Only.

RETAILERS CAN GET IMMEDIATE SHIPMENTS DIRECT BY PARCEL POST.

This advertisement is written on Monday, October 28th. It is directed to the attention of all distributors of Vick's Vaporub, both wholesale and retail. In an emergency such as the present epidemic—our duty—and your duty—is to distribute Vick's Vaporub in the quickest possible manner to these sections stricken by influenza. We, therefore, call your careful attention to the following:

## DANGER OF SHORTAGE IF SUPPLY IS NOT CONSERVED.

On October 1st we had on hand, at our factory and in twenty warehouses scattered over the country, sufficient Vaporub to last us, we thought, until January 1st allowing for a 50 per cent increase over last year's sales, and not counting our daily output. This big excess stock had been accumulated during the summer months. Then this epidemic of Spanish influenza hit us—and in the last 10 days this stock has vanished. At first we thought this tremendous demand would last only a few days, but the orders have run:

Wed., Oct. 16—18,694 Doz.  
Thurs., Oct. 17—25,321 Doz.  
Fri., Oct. 18—39,256 Doz.  
Sat., Oct. 19—45,521 Doz.  
Sun., Oct. 20—27,705 Doz.

Up to Saturday, October 19th, we have actually shipped for this month 249,241, or over two million jars of Vick's Vaporub.

## THE PROBLEM NOW IS TO DISTRIBUTE VAPORUB QUICKLY.

Most of this tremendous quantity is still enroute to the jobbers, but freight and express are both congested nowadays, and it may be some time before this supply reaches the jobbers. In the meantime, therefore, it is necessary that we distribute, as widely as possible, the stock that we are manufacturing daily, together with that now on the jobbers' shelves. In order that it may get to the influenza districts quickly, our normal output of 1,000 dozen per day is being put on a night shift, but it will be a little while before that is producing.

## WHAT WE ASK THE WHOLESALE DRUGGIST TO DO.

Last Saturday we notified all our jobbers, by Special Delivery, as follows:

Let—Deals and quantity shipments of all kinds are cancelled. Fill no quantity orders of any kind, whether taken by our salesmen or by your own. Sell in small lots only.

Order from us in as small quantities as possible. If you are out

we will try to ship a limited amount by Parcel Post or express, and pay the charges ourselves.

3rd—In order to make distribution still quicker, we will ship direct to your retail customers quantities not more than three (3) dozen 30 cent size at any one shipment.

4th—We are now out of the 60 cent size and will be for the next 10 days.

## WHAT WE ASK THE RETAIL DRUGGIST TO DO.

Buy in no small quantities as possible. If you have any quantity orders, given the jobbers' salesmen or given to our salesmen, don't bother about them—no need to write us—it is absolutely impossible to fill these orders at this time. If the jobbers in your territory are out of Vick's Vaporub, we will ship you by Parcel Post, prepaid, quantities not more than three (3) dozen 30 cent size in any one order. Naturally, we can't open accounts at this time. Your check or money order for this amount must accompany order. Don't write us stating to ship thru your jobber, as we then have to wait until we write this jobber and get his O. K. If you wish the goods to come thru your jobber, have him order them for you.

## SHOWED UNDER WITH CORRESPONDENCE.

Our force has already been "shot to pieces"—twenty-four of our men are wearing Uncle Sam's khaki—and this recent rush has simply buried us. All our sales force has been called in to help in the office and factory. We just mention this so you won't hold it against us if your wires and letters aren't answered promptly.

## SPECIAL REQUESTS ON SPANISH INFLUENZA.

We will send, on request, to any retail druggist, 100 or more little booklets, just issued, on Spanish influenza, giving the latest information about this disease—its history—the symptoms—the treatment, and particularly the use of Vick's Vaporub as an external application to supplement the physician's treatment.

## NEW WAYS TO USE VAPORUB.

In addition to the usual method of using Vaporub—that is, applied over the throat and chest and covered with hot flannel cloths—our customers are writing us daily telling of other ways in using Vaporub. In other words, particularly as a preventive, they melt a little in a spoon and inhale the vapors arising, or melt it in a glass of steamy liquid. Where the steam kettle is not available, Vaporub can be used in an ordinary tea-kettle. Fill the kettle with water, add a teaspoon of Vaporub from time to time—keep the kettle just slowly boiling and inhale the steam.

According to a Bulletin just issued by the Public Health Service, Dr. Sillars of this Service, recommends that the nose be kept greased in a preventive of influenza, the influenza germ. For this purpose Vaporub is excellent.

## DON'T TAKE CHANCES WITH YOUR HEALTH

See That You Get the Best Treatment First. FOOD FOR THOUGHT.

The selection of a doctor or specialist to treat you is an important matter—in fact THE MOST IMPORTANT. Your precious life is at stake. Lack of practical experience for giving life-giving treatments and a host of other reasons go to prove that the choice of your doctor or specialist is a vital one. I offer you years of actual experience. I advertise in my own name. I operate personally, examine and treat all patients personally and have no assistants. My methods are strictly up to date, straight, honest, legitimate and scientific—real, genuine service and not only by the use of medicines taken when indicated such remedies as serums, vaccines, anti-toxins, "cigars" and the latest German discovery "gigs" and also the 20th century office treatments, pleasant indeed, and best of all what hastens patient's recovery. I say don't ruin your bodies by "over dosing" continuously with drugs alone. Many make this serious mistake. Scientific drugless methods and modern electrical procedures might mean your health and happiness under the skillful care of an experienced and practical regular SPECIALIST, who if you need medicines can intelligently prescribe same as indicated in connection with beneficial office treatments. All curable diseases treated.

There is no economy in employing an Amateur to do an Expert's Task and Right Here is Where I Come In. No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see me at once. Have it forever settled in your mind, if your case is incurable I will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

## BOOKS FOR SOLDIERS SUPPLIED BY A. L. A.

English Camp Shows the Good Work of That Organization for Our Boys.

Something like 12,000 pieces of stationery are distributed daily among 4,000 enlisted men by Ulrich B. Brubaker of Iowa, Kans., as librarian at the Y. M. C. A. writing tent, Woodley Rest Camp of the American Expeditionary Forces in southern England. The number of troops at this camp varies from 8,000 to 9,000.

This single detail indicates why it is necessary for the Y. M. C. A., Y. W. C. A., National Catholic War Council and K. of C. War Camp Community Service, Jewish Welfare Board and Salvation Army have to furnish 125,000,000 sheets a month for soldiers' letters.

## First Victory Boy's Work.

"Say, I'm wise to you, all right," a Western Union messenger boy whispered to one of the directors of the United War Work Campaign in the New York headquarters. The director's desk had only just been moved in and the work of the big drive had hardly begun.

"I'm onto your stunt," the boy went on as he swung a grimy fist over the desk: "you're going to give us fellows that ain't old enough to go to war a chance to earn an' give to back up a faction of 'help win the war. Listen, I'm in on this."

The crumpled 25 bill he dropped on the desk made him the first of a million boys behind a million fighters who are to be fitted up as Victory Boys during the week of the drive.

There will be a division of Victory Cliffs, too, and every boy and every girl shall have to have to earn every dollar he or she gives to the war work fund.

An Observing Frenchman. Being a being good fighter, the French are being good and observing. In Normandy there is a sign up at the entrance of a field. "Flowers taken in grass. Rosebuds in grass. Flowers with long stalks, a fine day. Flowers with short stalks, a fine day." On being asked why he made this strange distinction, the Frenchman explained that a horse with a short tail is as weak as a horse with a long tail. He said that a horse with a long tail can flick off the flies and eat grass at the same time.

## Save Fruit Pits and Save Lives. War Work For The Weakest Hands.

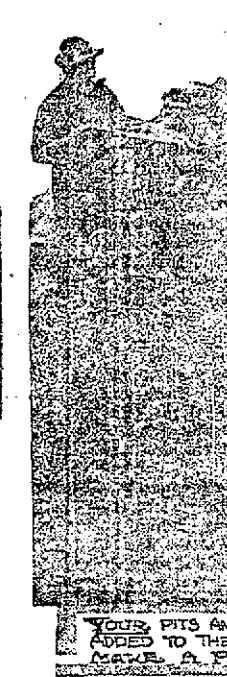

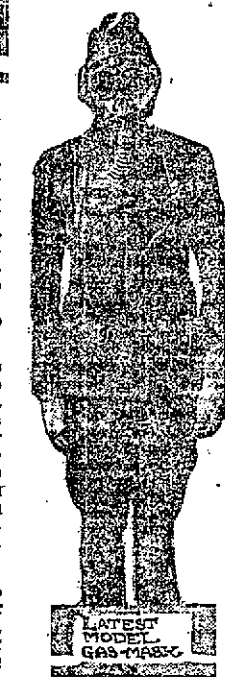

"Gassed? Not if every American does his duty!"

One million pounds of fruit pits and nut shells are needed every day to keep busy the 750 men employed at the government plant at Astoria, New York, where the Gas Defense Division of the Army makes charcoal of a grade fine enough to filter German poison gas and give our soldiers the best masks that can be made. A second plant, at San Francisco, must be equally well supplied.

The Red Cross is collecting this material in a national drive to save the lives of our soldiers. Every man, woman and child in the country can contribute in some degree. It is war work for the weakest hands. Two hundred peach pits or seven pounds of nut shells will make charcoal enough for one mask. Individual savings may be small; when multiplied by millions of savers they become tremendously large.

Chemists have found that only the following will be of use: pits of peaches, plums, apricots, olives, cherries and dates; shells of walnuts, Brazil nuts, hickory nuts and butternuts. Dry these materials before you turn them in; do not mix other things with them. Nut meals should be taken out if possible, the Food Administration advises, as a good conservation measure; but whole

## STATISTICS PROVE ANTI-FLU SERUM IS SURE PROTECTION

Thousands of Employees of  
Philadelphia Concerns  
Escape Disease.

### ALL WERE INOCULATED

Washington Physician Declares that  
Not One Person in Thousand Has  
Treated With Vaccine Has Affected  
by Malady; Does Work in New York

Statistics gathered from eastern  
cities leave no doubt that anti-influenza  
serum renders the one treated  
immune from the disease.

Emphasizing the efficacy of the  
serum the entire working force of the  
Philadelphia Electric Company num-  
bering 2,500 men was kept intact, ac-  
cording to the Philadelphia Record.

Valiant work by Dr. T. J. Bowes,  
medical director of the Philadelphia  
Electric Company and his corps of as-  
sistants has kept virtually the entire  
force of that corporation free from  
epidemic influenza.

Three weeks ago, when the disease  
first became threatening here, the com-  
pany's physicians began their inocu-  
lations, the Philadelphia Electric thus  
being the pioneer in the work in this  
city.

Thirty-five hundred employees of the  
company submitted to inoculation and  
of these not one contracted influenza.  
This immunization was of particular  
value in the case of the plant at West-  
side. Had work been held up there  
government production would have  
been handicapped.

Outside corporations asked the  
Philadelphia Electric company for aid  
which was given and Dr. Bowes and  
his assistants inoculated 10,000 per-  
sons who had no connection with the  
electric concern. No charge was  
made for the service.

The heavy calls on the company's  
medical department exhausted its  
supply of Sherman serum and on an  
appeal by Dr. Bowes, Colonel James  
Brown, president of the Philadelphia  
Physicians Supply Co., sent a girl  
messenger to Detroit for serum. The  
girl rushed on one train and caught  
the next one back.

Besides the 3,500 employees of the  
electric company 6,500 workers at the  
Hog Island shipyard were treated  
with vaccine. According to the re-  
port of Dr. P. J. Reilly, chief sur-  
geon, only three cases of influenza  
developed.

Dr. Robert W. Perkins of Wash-  
ington D. C., makes the following  
observations in a letter to Dr. G. H.  
Sherman, Detroit, Mich.  
My Dear Dr. Sherman

Spanish Influenza can  
be prevented easier than  
it can be cured.

# Why Acid-Stomach Causes So Much Bad Health

Many people seem to think that acid-stomach  
—or superacidity—is of little importance, that it  
merely causes some slight trouble such as belching,  
heartburn, sour, gassy stomach, food-repeating,  
bloat, etc.

If those same people would only realize the real  
truth about acid stomach and when these first  
symptoms appear would at once start to treat them-  
selves of the excess acid, what a crushing load of  
awful suffering, misery and ill-health would be  
lifted from mankind!

Do you realize that the ill effects of an acid-stomach  
extend throughout the entire system and more or  
less affect practically every organ and tissue of the  
human body from the crown of the head to the soles  
of the feet? Well, it's a fact. For instance, prob-  
ably few people would ever think that there could be  
any connection between an acid-stomach and  
dandruff and falling hair; or between an acid-stomach  
and a gouty look. Nevertheless there is a  
direct connection.

Now you know what acid mouth does to the  
teeth. The acid eats right through the hard enamel  
causing them to decay. What chance, then, do you  
think the delicate organization of the stomach has  
against excess acid?

The excess acid interferes with digestion and  
assimilation. It causes the food to ferment. Makes  
the sour stomach and creates gases. That's what  
causes those acute stomach pains of indigestion,  
that miserable bloated feeling after eating, heart-  
burn, belching, food-repeating, etc.

Moreover, that sour mass of fermenting food  
becomes a breeding place for countless millions of  
deadly germs—toxic poisons they are called. They  
are absorbed into the system, impoverish the blood,  
make it thin and weak. That is why so many peo-  
ple who are weak and anemic, thin, bloodless  
and look haggard and downcast are not but always ailing,  
lacking in vitality, vim and vigor. They've lost their  
punch, are listless in both their work and pleasures—  
they're run down and seem "all in."

Now of course the right thing to do is to get rid  
of the excess acid, give the stomach a chance to  
digest the food properly and Nature will do the rest.

There is a quick and easy way to do this. A won-  
derful new discovery makes it possible to remove  
excess acid without the slightest discomfort. It is  
called EATONIC, made in the form of tablets—they  
are good to eat—just like a bit of candy. Their  
action in the stomach is a good deal like a piece of  
blotting paper taking up a drop of ink—they literally  
absorb the injurious excess acid and carry it away  
through the intestines. They also drive the blot out  
of the body—in fact you can fairly feel them work.

Try EATONIC and see how quickly it ban-  
ishes the immediate effects of acid-stomach—  
bloat, heartburn, belching, food repeating, indi-  
gestion, etc. See too, how quickly your general  
health improves—how much more relish you take  
in eating—how much more easily your food is  
digested—how soundly you sleep—how nervous-  
ness and irritability disappear.

It is so easy to get this help—and it costs so  
little. So why suffer another hour when sure, quick  
relief is at hand? Everywhere people who have  
used EATONIC testify to its power to bring quick  
relief. The testimonials of some of these people  
are so enthusiastic and tell of such remarkable re-  
sults as to be almost unbelievable.

If you are one of those who have "tried every-  
thing," but in spite of it are still lacking in physical  
strength and vigor, begin at once to take EATONIC.  
Don't put it off. Get back your physical and  
mental punch. Have the power and energy to  
work with vim. Enjoy the good things of life.  
Learn what it means to fairly bubble over with  
health. Like thousands of others, you will say  
that you never dreamed it possible that such a  
wonderful change for the better could be brought  
about so quickly.

So get a big box of EATONIC from your drug-  
gist today. We authorize him to guarantee  
EATONIC to please you and you can trust your  
druggist to make this guarantee good. If it fails in  
any way, take it back—he will refund your money.  
If your druggist does not keep EATONIC write to us  
and we will send you a big 50c box. You can  
send us the 50c after you receive it. Address  
H. L. Kramer, President, Eaton's Remedy Com-  
pany, Cor. Wabash Ave. and 11th St., Chicago, Ill.

I think it just that I should report  
the success I have had in treating  
and preventing Spanish Influenza  
with your vaccine No. 38.

I have given over 1,000 inocula-  
tions with 100 per cent protection and  
treated several hundred cases with  
no deaths. No pneumonia developed  
after vaccine was administered.

A single injection of 1 cc has  
proved sufficient to protect against  
the disease. As a cure I give an adult  
1 cc every 48 hours, and seldom do I  
have to administer more than two  
doses.

"Prior to the time I used vaccine  
nearly everybody exposed to the dis-  
ease contracted it. Now I blot it  
out of every home at my first visit by  
inoculating the entire family children  
and babies included, using one-half

cc between the ages of five and 10  
years, and one-fourth cc under five  
years.

Good results from the use of vac-  
cine are reported by Dr. M. J. Emer  
of New York, as reported in the New  
York Times. Dr. Emer said:

"We have given the vaccine as a  
preventative to 450 Y. M. C. A. work-  
ers and the results have been re-  
markably good. The treatment com-  
sists of three injections of the vac-  
cine at intervals of five days. None

of those who have taken the three  
injections has contracted the dis-  
ease. Seven who had taken only one  
treatment reported cases of influenza.  
Some of them have suffered only very  
slight symptoms resembling grip  
which are produced by the vaccine.  
One who received the first treat-

ment and refused later treatments  
contracted Spanish Influenza and died.  
The physician who treated her was  
of the opinion that she would have  
been saved, except that treatment for  
the disease was refused. The others  
who had received only one treatment  
had very mild cases without pneu-  
monia or other complications.

"The fact is that the vaccine for in-  
fluenza and pneumonia was perfected  
as much as six years ago by Dr. Ellis  
Bourne. I have personal knowledge  
of its successful use both in preven-  
tion and treatment of the disease for  
several years. The one vaccine con-  
tains the humoralization against in-  
fluenza, pneumonia, and blood poison-  
ing, which are found in combination  
in many cases of influenza, especially  
in the present epidemic.

"Had the immunization been used  
last year in the army cantonnements  
the ravages of pneumonia there would  
have been prevented. The technique  
from using the vaccine has been  
thoroughly worked out and in use for  
years. It has been unfortunate that  
this present epidemic has caused  
some of the medical authorities to  
waste time in experimenting when a  
thoroughly successful vaccine is at  
hand. I hope that the time for its  
general adoption by the medical pro-  
fession will not be long delayed.
